

Important: Read all instructions prior to installation.

LED Wall Washer Light

WW-RGB30K25-3085S-DMX

Specifications

Environmental Specifications	
Operating Temperature	-40°–122° F (-40°–50° C)
IP Rating	IP66

Check product label for specific electrical specifications related to installation.
Improper installation will void warranty.

Safety and Notes

- Product should be installed and serviced by a certified electrician in accordance with applicable national, state, and local building and electrical codes.
- To reduce the risk of electric shock, ensure that the main power source and circuit breakers are switched off before performing any installation or wiring procedures.
- Avoid looking directly into lamp when illuminated.
- Ensure all mounts are securely attached and will support the weight of the fixture. Failure to properly support fixture may result in damage or injury, for which the manufacturer does not assume responsibility.
- Any alteration or modification of this product is expressly forbidden as it may cause serious personal injury, death, property damage, and/or malfunction.

Installation

Standard Bracket (included)

1. Mark appropriate holes and drill pilot holes in surface. Secure light into place.
2. With supply power off, connect wiring.

Adjustable Bracket (optional, sold separately)

1. Remove existing bracket and slide adjustable brackets into place.
2. Mark appropriate holes and drill pilot holes in surface. Secure light into place.
3. Adjust angle and tighten bracket when in desired position.
4. With supply power off, connect wiring.

Extended Mounting Arms (optional, sold separately)

1. Mark appropriate holes and drill pilot holes in surface. Secure brackets into place and adjust as needed.
2. Attach light to arms using either the standard or optional adjustable mounting brackets.
3. With supply power off, connect wiring.

Linking Lights

Connect fixtures together in a daisy chain with the interconnecting ends or use optional interconnect cables.

Note: Max run is 30 lights.
