⚠ WARNING

- **INGESTION HAZARD:** This product contains a button cell or coin battery.
- **DEATH** or serious injury can occur if ingested.
- A swallowed button cell or coin battery can cause **Internal Chemical Burns** in as little as **2 hours**.
- **KEEP** new and used batteries **OUT OF REACH** of **CHILDREN**
- **Seek immediate medical attention** if a battery is suspected to be swallowed or inserted inside any part of the body.

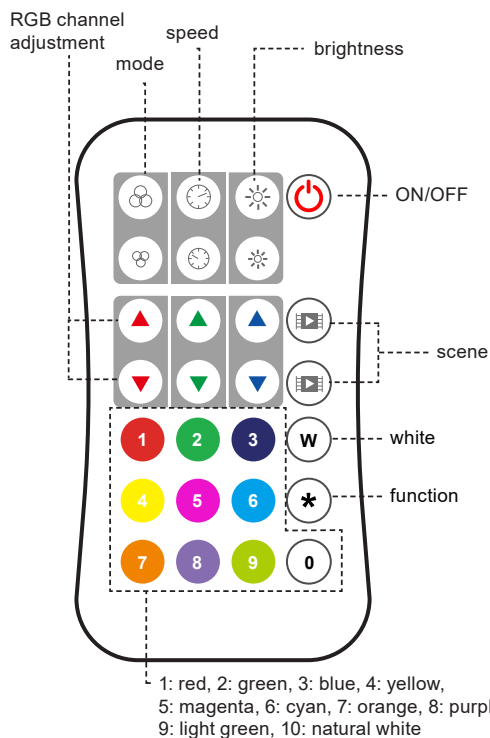

Safety and Notes

- Product should be installed and serviced in accordance with applicable national, state, and local building and electrical codes.
- To reduce the risk of electric shock, ensure that the main power source and circuit breakers are switched off before performing any installation or wiring procedures.

Battery Safety

- Remove and immediately recycle or dispose of used batteries according to local regulations and keep away from children. Do NOT dispose of batteries in household trash or incinerate.
- Even used batteries may cause severe injury or death.
- Call a local poison control center for treatment information.
- Non-rechargeable batteries are not to be recharged.
- Do not force discharge, recharge, disassemble, heat above (manufacturer's specified temperature rating) or incinerate. Doing so may result in injury due to venting, leakage or explosion resulting in chemical burns.
- Ensure the batteries are installed correctly according to polarity (+ and -).
- Do not mix old and new batteries, different brands or types of batteries, such as alkaline, carbon-zinc, or rechargeable batteries.
- Remove and immediately recycle or dispose of batteries from equipment not used for an extended period of time according to local regulations.
- Always completely secure the battery compartment. If the battery compartment does not close securely, stop using the product, remove the batteries, and keep them away from children.

Remote Layout and Functions

Mode

Once setup is complete (see page 2) press to cycle between preprogrammed modes. Hold the upper mode (mode plus) button for two seconds to run the mode cycle demo setting. Hold the lower mode (mode minus) button for two seconds to return to and run mode 1.

Speed

Press to adjust the speed of the selected preprogrammed mode. Hold the upper speed (speed plus) button for two seconds to select the fastest speed. Hold the lower speed (speed minus) button for two seconds to select the slowest speed.

Brightness

Press to adjust brightness in ten percent increments. Hold for continuous 256 level adjustment.

RGB

Press to adjust in ten percent increments. Hold for continuous 256 level adjustment.

White

Press to turn white (RGB mix) on/off. Hold for continuous 256 level adjustment.

Scene

Each scene button can save one setting. Setting is saved by holding scene button for two seconds. Press the scene button after saving settings to recall those settings.

Pairing Remote(s)

REMOTE(S) MUST BE PAIRED AS PART OF THE INSTALLATION PROCESS AND DO NOT COME PRE-PAIRED. EACH CONTROLLER CAN BE PAIRED TO UP TO TEN (10) REMOTES.

To pair a remote, press match button on the controller, then immediately press on/off button on the remote. Indicator light on controller will flash slowly while attempting to pair, then five times rapidly to indicate successful pairing. To unpair a remote, hold match button for five seconds. Indicator light on controller will flash five times rapidly to indicate successful unpairing.

Important: Read all instructions prior to installation.

Addressable RGB LED Controller and Remote

Setting Adjustment

Strip Length (Pixel Number) Setting

Strip length, or pixel number, can be set up to 1,024 pixels. Begin by pressing the function button (*), then entering the number of pixels with the number buttons, then pressing the function (*) button again.

Note: Numbers lower than 100 will need a zero (0) entered in before the number.

RGB Order

RGB order can be set by pressing the function button (*), then entering the one-digit code corresponding with the correct RGB order using with the number pad, then pressing the function (*) button again.

| Code | RGB Order |
|------|-----------|
| 1 | RGB |
| 2 | RBG |
| 3 | GRB |
| 4 | GBR |
| 5 | BRG |
| 6 | BGR |

IC Type Setting

IC type can be set by pressing the function button (*), then entering the two-digit code corresponding with the correct IC type using with the number pad, then pressing the function (*) button again. Consult the list below for the code for each IC type.

| Code | IC Type |
|------|--|
| 11 | TM1803 |
| 12 | TM1809, TM1804, TM1812, UCS1903, UCS1909, UCS1912, UCS2903, UCS2909, UCS2912, WS2811, WS2812 |
| 13 | TM1829 |
| 14 | TLS3001, TLS3002 |
| 15 | GW6205 |
| 16 | MBI6120 |
| 17 | TM1814B(RGBW) |
| 18 | SK6812(RGBW) |
| 19 | UCS8904B(RGBW) |
| 21 | LPD6803, LPD1101, D705, UCS6909, UCS6912 |
| 22 | LPD8803, LPD8806 |
| 23 | WS2801, WS2803 |
| 24 | P9813 |
| 25 | SK9822 |
| 31 | TM1914A |

Preprogrammed Modes

Once remote is paired, hold the upper mode (mode plus) button for 2 seconds to unlock preprogrammed modes which can then be cycled through using the mode buttons on the remote.

| No. | Name | No. | Name | No. | Name |
|-----|---------------------------------|-----|------------------|-----|----------------------------|
| 1 | Red Race White Ground | 12 | Blue White Chase | 23 | Purple Float |
| 2 | Green Race White Ground | 13 | Green Cyan Chase | 24 | RGBW Float |
| 3 | Blue Race White Ground | 14 | RGB Chase | 25 | Red Yellow Float |
