

Important: Read all instructions prior to installation.

LED Linear High Bay Light

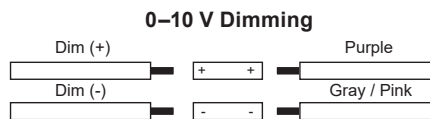

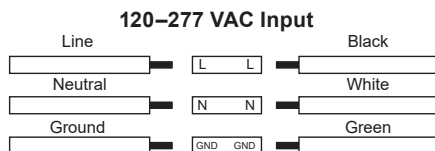

LHBD4-50K400

Safety and Notes

- To reduce the risk of death, personal injury or property damage from fire, electric shock, falling parts, cuts/abrasions, and other hazards read all warnings and instructions included with and on the fixture box and all fixture labels. Before installing, servicing, or performing routine maintenance upon this equipment, follow these general precautions.
- Turn off electrical power at fuse or circuit breaker box before wiring fixture to the power supply or performing any maintenance. Installation, service and maintenance of luminaires should be performed by a qualified licensed electrician.
- If you are unsure about the installation or maintenance of the luminaires, consult a qualified, licensed electrician and check your local electrical code.
- To prevent wiring damage or abrasion, do not expose wiring to edges of sheet metal or other sharp objects.
- All wiring connections should be capped with UL-approved wire connectors. Minimum 90° supply conductors.
- Avoid direct eye exposure to the light source while it is on.
- Account for small parts and destroy packing material, as these may be hazardous to children.
- Green ground screw provided in proper location. Do not relocate.

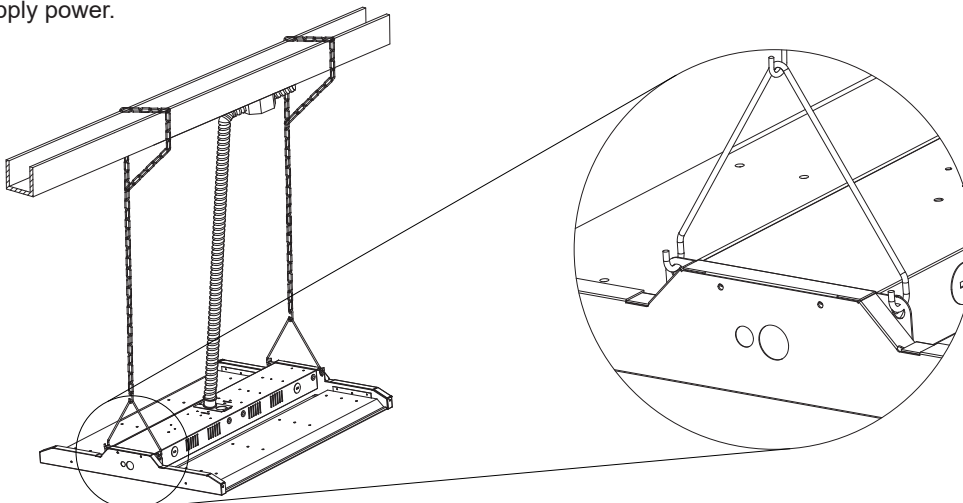

Wiring Diagram

Check product label for specific electrical specifications related to installation. Improper installation will void warranty.

Installation

1. Switch off breaker to remove supply power.
2. Measure and attach chains to a pipe or mounting hooks (not included) that can support weight of the fixture.
3. Attach hangers to light and hang light on chains. Adjust height as needed.
4. Connect wiring and conduit to fixture.
5. Switch on supply power.
