

## RibbonFlex Pro White 120V Outdoor LED Strip Light Tape

139430

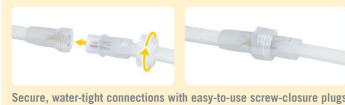

MSRP \$ 89.99

- Driverless LED light strips are waterproof rated IP67, perfect for indoor or outdoor use
- Connect up to ten 5M reels of flexible outdoor LED strip lights in a single interior or exterior LED strip lighting installation
- Waterproof LED strip coating acts as a LED strip light diffuser, making it suitable for any outdoor location
- No LED power supply required, plugs into standard outlet
- Working temperature range: -4 degrees F to 104 degrees F

Extend up to 164 ft. (50m)

Connect up to 10 strips end-to-end

Secure, water-tight connections with easy-to-use screw-closure plugs

Mount with included brackets & screws

INCLUDES:

- 16.4 ft. (5m) 120-volt white strip light
- (8) mounting brackets
- (16) screws

Effortlessly illuminate any outdoor space with Armacost Lighting's RibbonFlex Pro 120 Volt White Outdoor LED Strip Lights. The flexible LED tape light operates at 120V and can be plugged directly into a standard outlet without a LED power supply. IP67 rated waterproof LED strip lights are perfect for low voltage landscape lights, pool area lighting, and deck or patio lighting.
