Selectable CCT and Wattage Switches

Safety and Notes

- To reduce the risk of death, personal injury or property damage from fire, electric shock, falling parts, cuts/abrasions, and other hazards read all warnings and instructions included with and on the fixture box and all fixture labels.
- Before installing, servicing, or performing routine maintenance upon this equipment, follow these general precautions
- Commercial installation, service and maintenance of luminaires should be performed by a qualified licensed electrician.
- For the installation: If you are unsure about the installation or maintenance of the luminaires, consult a qualified, licensed electrician and check your local electrical code.
- To prevent wiring damage or abrasion, do not expose wiring to edges of sheet metal or other sharp objects.
- Do not make or alter any open holes in an enclosure of wiring or electrical components during kit installation.
- **WARNING:** Turn off electrical power at fuse or circuit breaker box before wiring fixture to the power supply.
- Turn off the power when you perform any maintenance.
- Verify that supply voltage is correct by comparing it with the luminaire label information.
- All wiring connections should be capped with UL approved wire connectors.
- **CAUTION:** Avoid direct eye exposure to the light source while it is on.
- Account for small parts and destroy packing material, as these may be hazardous to children.
- **NOTICE:** Risk of burn. Disconnect power and allow fixture to cool before changing bulb or handing fixture.
- Green ground screw provided in proper location. Do not relocate
- Minimum 90° supply conductors.
- **NOTICE:** Specifications and dimensions subject to change without notice.
- **NOTICE:** Suitable for Dry or Damp location, Type IC.
- Failure to properly support the fixture may result in damage or injury, for which the manufacturer does not assume responsibility. A safety cable is not included, but it is recommended that one be connected to grid clip during installation.

Important: Read all instructions prior to installation.

Dimmable LED Panel Light

Drop Ceiling Installation

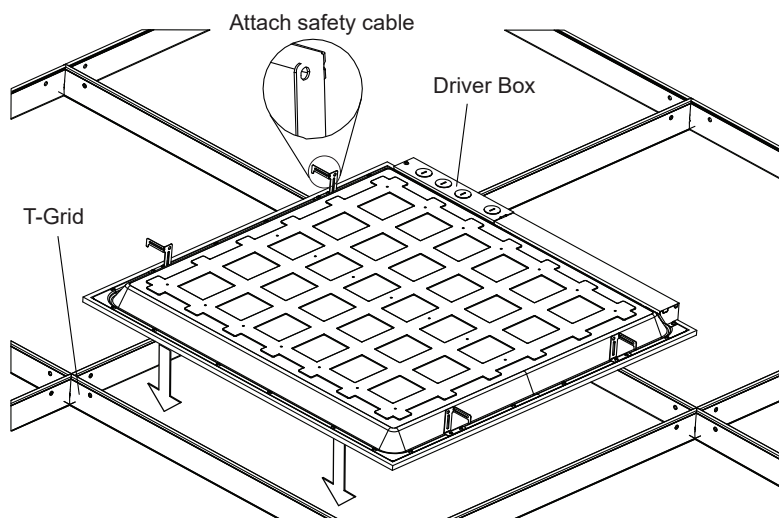

1. Turn supply power to circuit off. If installing as a retrofit, remove existing fixture.
2. Open driver box and remove knockout(s) for wiring. Make electrical connections using wiring diagram. Once complete, resecure driver box cover.

FIG 1

3. Slide switches to preferred Wattage and CCT.
4. Bend out safety tab to be vertical, then upper portion out 90 degrees. It is recommended that a safety cable (included) be installed to anchor the fixture as well.
5. Lay fixture into T-grid.

FIG 2

Note: Tabs should secure light in T-grid while still allowing reinstallation of adjacent ceiling tiles.
