

**Important:** Read all instructions prior to installation.

## Weather-Resistant LED Step Lights

### Included Parts

- 1 - step light
- 1 - weather-resistant wire nuts
- 2 - mounting screws
- 2 - mounting anchors

### Safety and Notes

- This product should be installed and serviced in accordance with applicable national, state, and local building and electrical codes.
- To reduce the risk of electric shock, ensure that the main power source is switched off before performing any installation or wiring procedures. Use weather-resistant connectors only.
- Install at least 10 ft (3.05 m) from any pool, spa, fountain, or other standing water.
- Mount using provided hardware only.

### Specifications

Model	ELL-xK2W-x
Operating Voltage Range	12 VAC, 12–24 VDC
Operating Temperature	-40°–104° F (-40°–40° C)
IP Rating	IP54

### Installation

1. Turn off the supply power.
2. Open the housing by twisting the front cap counterclockwise, then pulling the cap away from the base. This should be tight as there is a seal between the two pieces.
3. Use the rear housing to drill holes for the wiring and mounting.
4. Run and connect wiring and mount base using provided hardware.  
Note: Make certain the rear gasket is in place when mounting.
5. Reinstall the front cap by twisting clockwise until it is fully seated.
