

Important: Read all instructions prior to installation.

BYR-FS-RGBDIG-5050-30-5M

Addressable RGB LED Strip Kit

Safety and Notes

- Do not connect controller or strip directly to 120 VAC power; use the included power adapter only.
- Make sure the power supply is not plugged in before connecting or disconnecting any of the systems components.
- Do not expose the power supply to direct or indirect moisture. This kit may be used in wet environments where the power supply and its barrel connector are fully shielded from moisture.

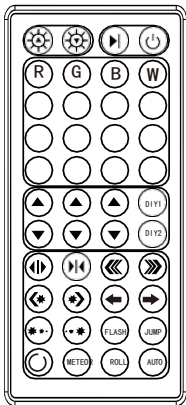

BYR-FS-RGBDIG-5050-30-5M

Installation

1. Remove strip from reel and install on a dry, clean surface using the adhesive rear backing.
Note: Make certain the IR sensor mounted in the strip is not obstructed.
2. Connect to power adapter.
3. Plug power adapter into wall outlet.
Note: Use a protected GFCI receptacle if the strip itself is being installed in a damp or wet location.
4. Use remote to change settings.

IR Remote

- | | | |
|---|-------------------------------------|---|
| ▶ Play / Pause | DIY1 DIY2 | DIY Color instructions: press either DIY key. Adjust color using increase / decrease color keys, press the DIY color key chosen again. Your setting is saved. |
