

## **User Manual**

**DLSxD-SW Series** 

Important: Read all instructions prior to installation.

# Selectable CCT LED Downlight

## **Safety and Notes**

- Dangerous: High Voltage. Product should be installed and serviced by a certified electrician in accordance with applicable national, state, and local building and electrical codes.
- To reduce the risk of electric shock, ensure that the main power source and circuit breakers are switched off before performing any installation or wiring procedures. Do not use if cable, light, or junction box are damaged.
- Avoid looking directly into lamp when illuminated.
- Connect only to indicated voltage and in an appropriate environment to avoid potential damage or personal injury.
- Ensure all mounts are securely attached and will support the weight of the fixture. Failure to properly support fixture may result in damage or injury, for which the manufacturer does not assume responsibility.

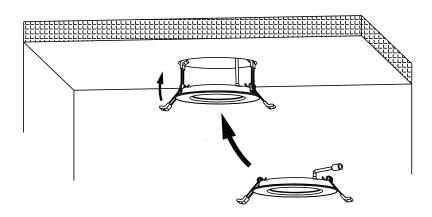

## **Specifications**

Environmental Specifications	
Operating Temperature	14°-104° F (-10°-40° C)
IP Rating	IP44

Check product label for specific electrical specifications related to installation. Improper installation will void warranty.

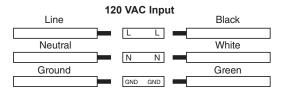

#### Installation

- 1. Turn supply power to circuit off.
- Measure and cut hole according to model. 2.
- Remove junction box cover and set CCT to desired value. 3.
- Make electrical connections. 4.
- Mount light and reapply supply power.

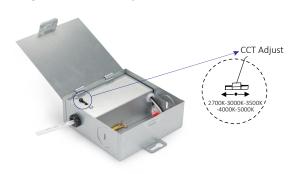

Model	Cutout Size
DLS4D-SW5A9-120V	4.3-4.7 in. (109-119 mm)
DLS6D-SW5A12-120V	6.3-6.7 in. (160-170 mm)

## **Wiring Diagram**

## **CCT Adjustment**

Prior to installing light, CCT can be selected using the built-in switch in junction box.

## **Compatible Third Party Dimmers**

Lights are compatible with the following third party dimmers to accomodate existing installations.

- LEVITON 6674
- LUTRON DVCL-153P
- LUTRON CTCL-153P
- LUTRON MACL-153M
- ELECTR/V/ART 40201
- LUTRON SCL-153P
- LEVITON 6633-P
- LEVITON 6613
- LEVITON 66EV
- LEVITON DDE06
- LUTRON SELV-303P
- LUTRON DVSCELV-300P
